Allowable Subject Matter

1. Claims 1-6, 9-12, 23-25, 27-32, 34-38 and 41- 46 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for monitoring the presence and/or movement of participants in a market research study. Each independent claim identifies the uniquely distinct features "plurality transmitters located at predetermined locations within a commercial establishment to wirelessly transmit location signals associated with the locations to the wireless receiver being adapted to be carried on the participant, wherein the signal transmitters are adapted to not transmit the respective location signals when the presence of a participant is not detected" and "the receiver gathered data representing exposure of respective ones of the participants to one of media data and outdoor advertising" in combination with the manner claimed. The closest prior arts, Busche et al. [US2003/0055707], Stotey et al. [US 2002/0004740] and Hines et al. [US6,396,413] disclose similarly inventions, however, they fail to specify the distinct limitations above. Therefore, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
